

Case packer ELEMATIC 2000

Case packing technology on two levels

BOSCH
Invented for life

Application information

Products

Piece goods for gentle or compact packaging by wrap-around lowering.

Packaging style

Full wrap

Tray

Option: Tray with inner hood

Décolleté

Special packagings

Packaging material

Solid and corrugated board.

Design

Cantilever design with welded, painted frame. The drives are situated in an enclosed drive compartment at the rear of the machine.

Ergonomics and design

Easy accessibility of all machine areas. Removable modules for easy troubleshooting. All machine areas are open to inspection. The blank magazine may be optionally extended with a pre-feeder. A larger blank storage unit provides longer running times without magazine refills. The machine is available in left-hand and right-hand version.

Operation

The **Elematic 2000** is operated via a touchscreen. From here, all relevant machine parameters can be inspected and changed using a password-protected system.

Your benefits

► Flexibility

The **Elematic 2000** allows easy and reproducible format changes and is highly flexible in its use. Format changes are effected via quick-change parts and spindles with digital indicator.

► Layout

The **Elematic 2000** is available in left-hand and right-hand version and perfectly adapts to the production environment.

► Hygiene

The clever, innovative design concept of the **Elematic 2000** was specifically developed for the food industry. It offers perfect solutions for accessibility, maintenance and cleaning.

► Operator-friendly

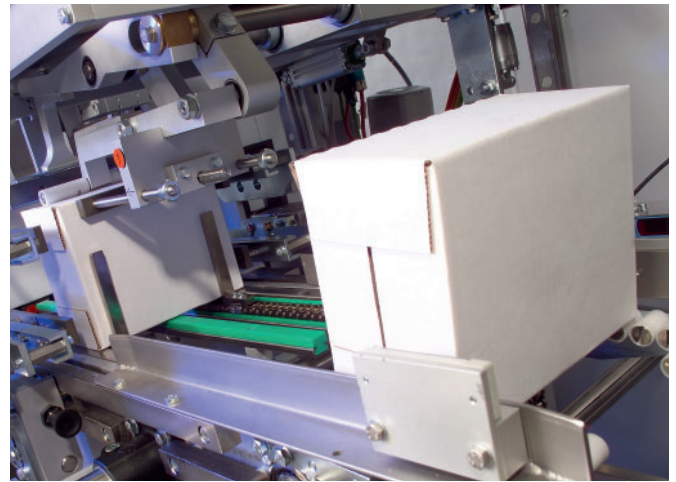

The easy accessibility and well-arranged design of the **Elematic 2000** combined with self-explanatory guidance on the touchscreen ensure maximum ease of operation.

► Quality

The high-quality kinematics and smooth-running drives guarantee maximum availability.

Grouping module

Carton transport

Standard equipment

- ▶ State-of-the-art drive and control technology: Elau
- ▶ Hotmelt system: Nordson
- ▶ Siemens touchscreen (10-inch, colour)

Options

- ▶ Second blank magazine to create two-parts packages
- ▶ Machine colour: customer preference
- ▶ Drive and control technology: Siemens, Allen Bradley, Bosch Rexroth
- ▶ Support system for sustainable operation (Standby and Sleep)
- ▶ Support system for maintenance and servicing (MIS)
- ▶ Semi-automated format adjustment
- ▶ Hotmelt system: Robatech

... and much more
